Task 1 - Create Storage Account

Home › Storage center | Blob Storage

Create a storage account

Azure Storage is a Microsoft-managed service providing cloud storage that is highly available, secure, durable, scalable, and redundant. Azure Storage includes Azure Blobs (objects), Azure Data Lake Storage Gen2, Azure Files, Azure Queues, and Azure Tables. The cost of your storage account depends on the usage and the options you choose below. Learn more about Azure storage accounts

Project details

Select the subscription in which to create the new storage account. Choose a new or existing resource group to organize and manage your storage account together with other resources.

Subscription * : Azure subscription 1

Resource group * : (New) storage-assessment

Create new

Instance details

Storage account name * : storagelabspractice2509

Region * : (Asia Pacific) South India

Deploy to an Azure Extended Zone

Preferred storage type : Azure Blob Storage or Azure Data Lake Storage Gen 2

This helps us provide relevant guidance. It doesn't restrict your storage to this resource type. Learn more

Primary workload : Select...

Pick the closest match to your workload to get a recommended configuration built on best practices. You can edit this configuration anytime. See comparison table

Performance * :

- (selected) **Standard:** Recommended for most scenarios (general-purpose v2 account)
- **Premium:** Recommended for scenarios that require low latency.

Redundancy * : Locally-redundant storage (LRS)

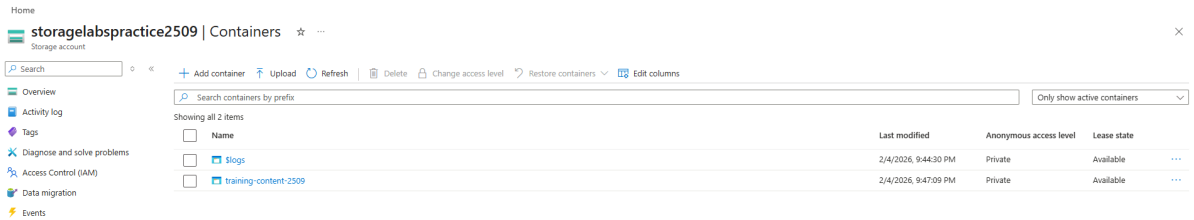
Summary | Resources

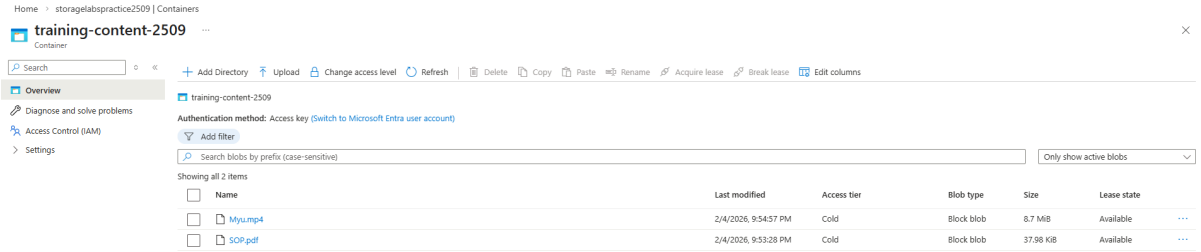
Create | Restore | Manage view | Refresh | Export to CSV | Open query | Assign tags | Delete | Add to service group | Group by none

Filter for any field... | Subscription equals all | Resource Group equals all | Location equals all | Add filter

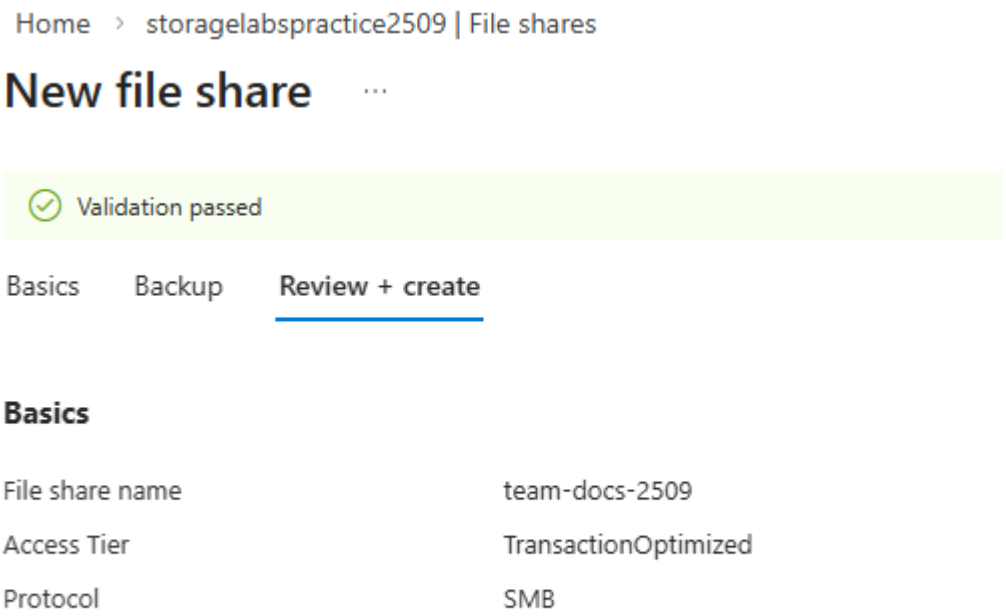
Name	Type	Kind	Resource Group	Location	Subscription
day3assessment	Storage account	StorageV2	rg-assessments	East US	Azure subscription 1
storagelabspractice2509	Storage account	StorageV2	storage-assessment	South India	Azure subscription 1

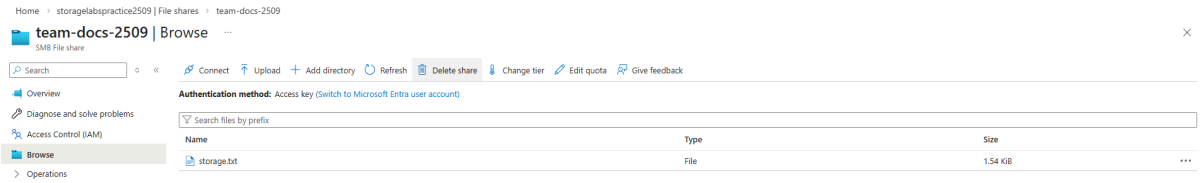
Task 2 - Blob Storage



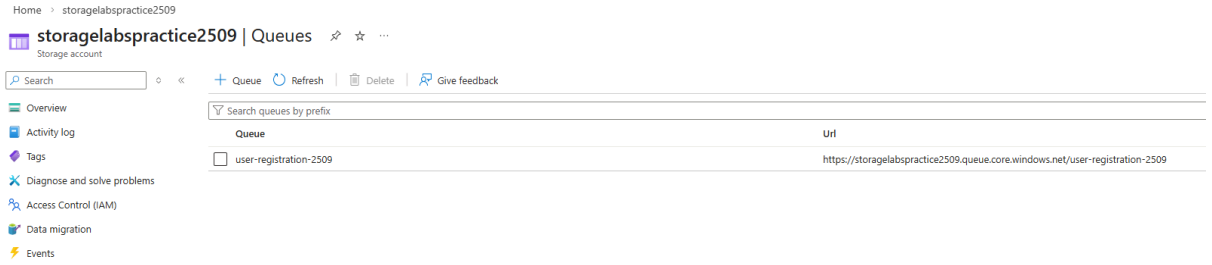


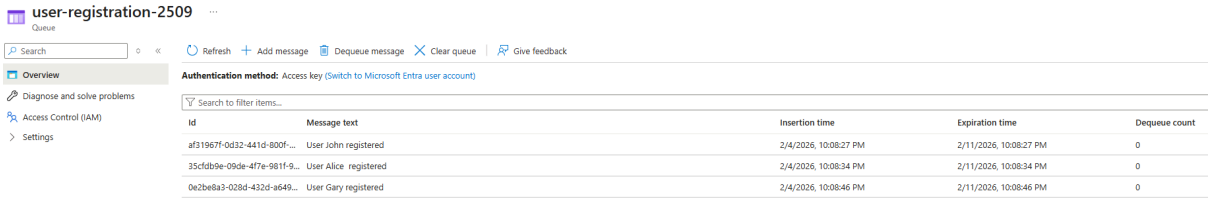
Task 3 - File Share



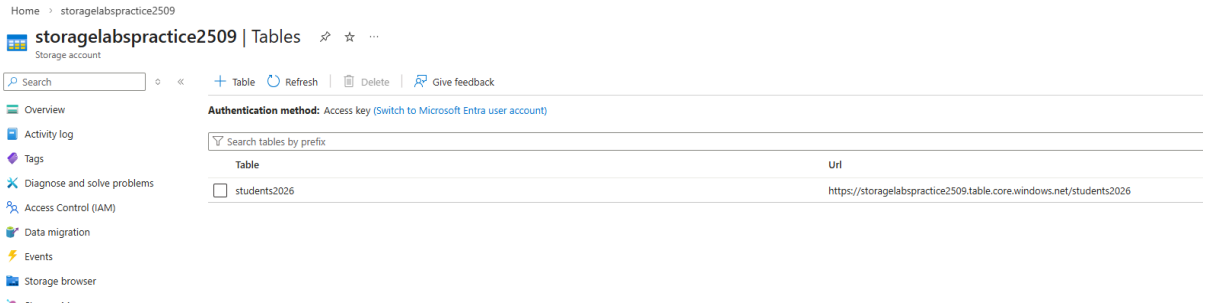


Task 4 - Queue Storage

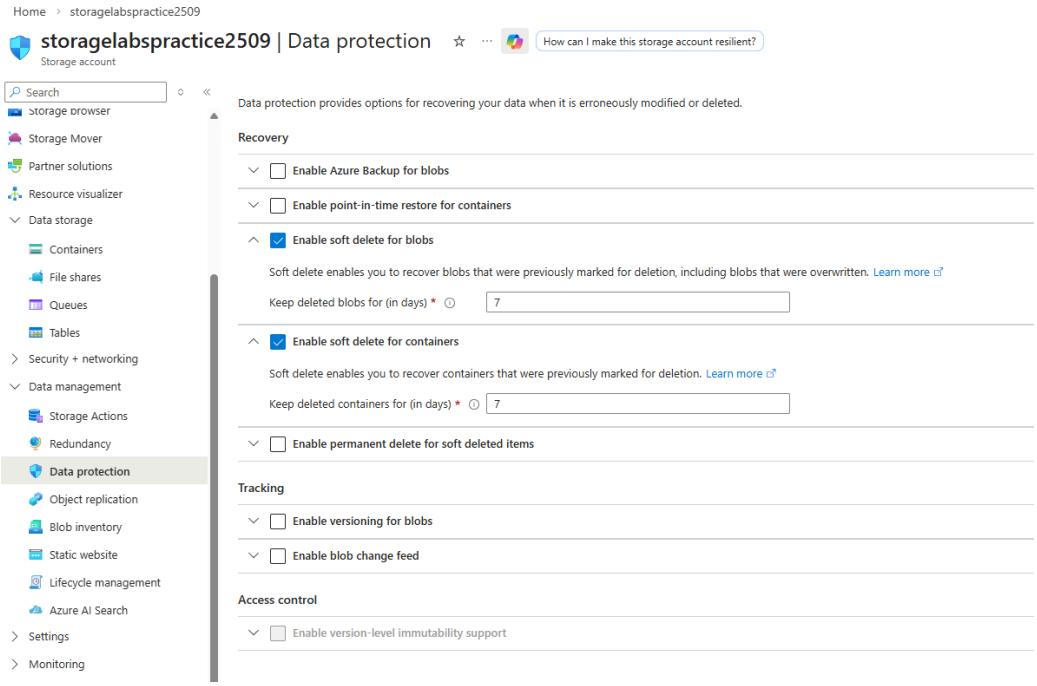


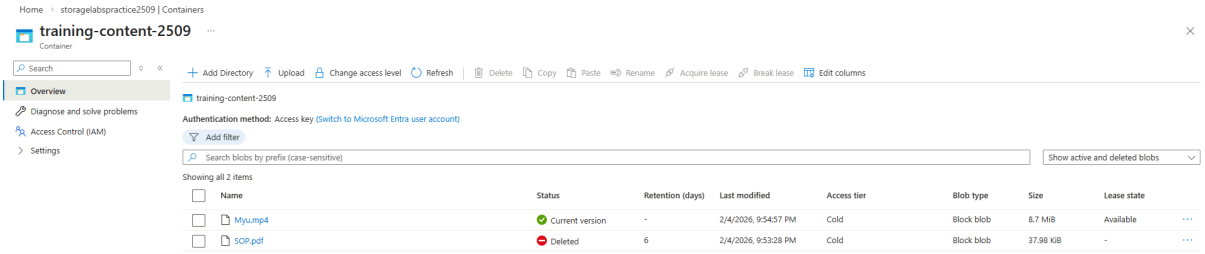


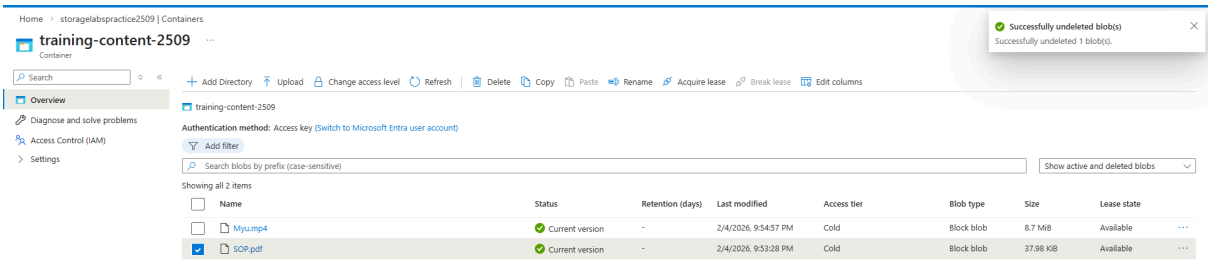
Task 5 - Table Storage



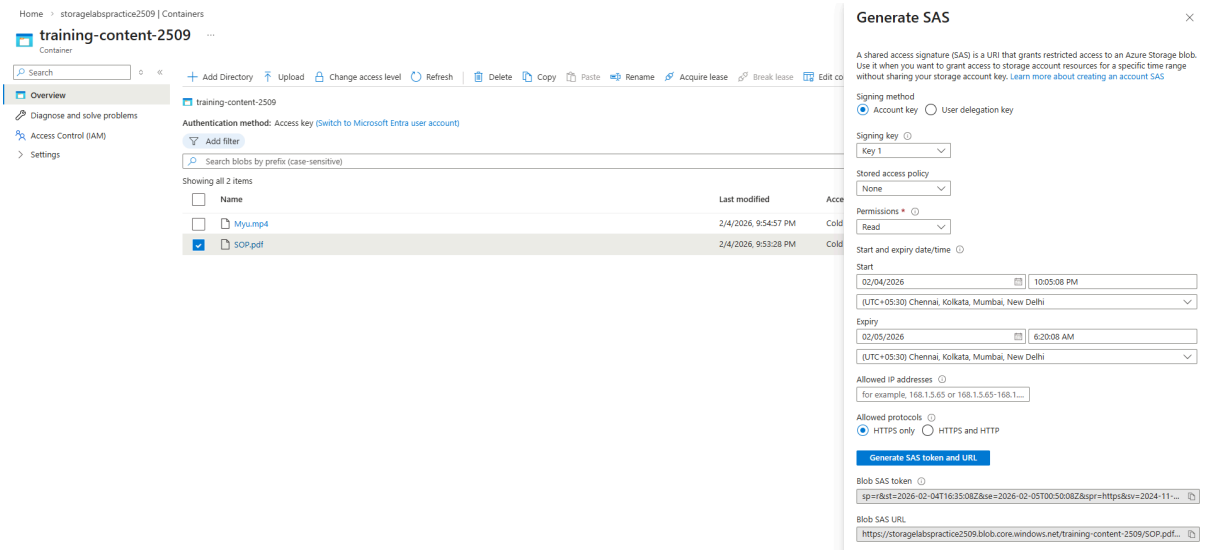
Task 6 - Blob soft delete and recovery

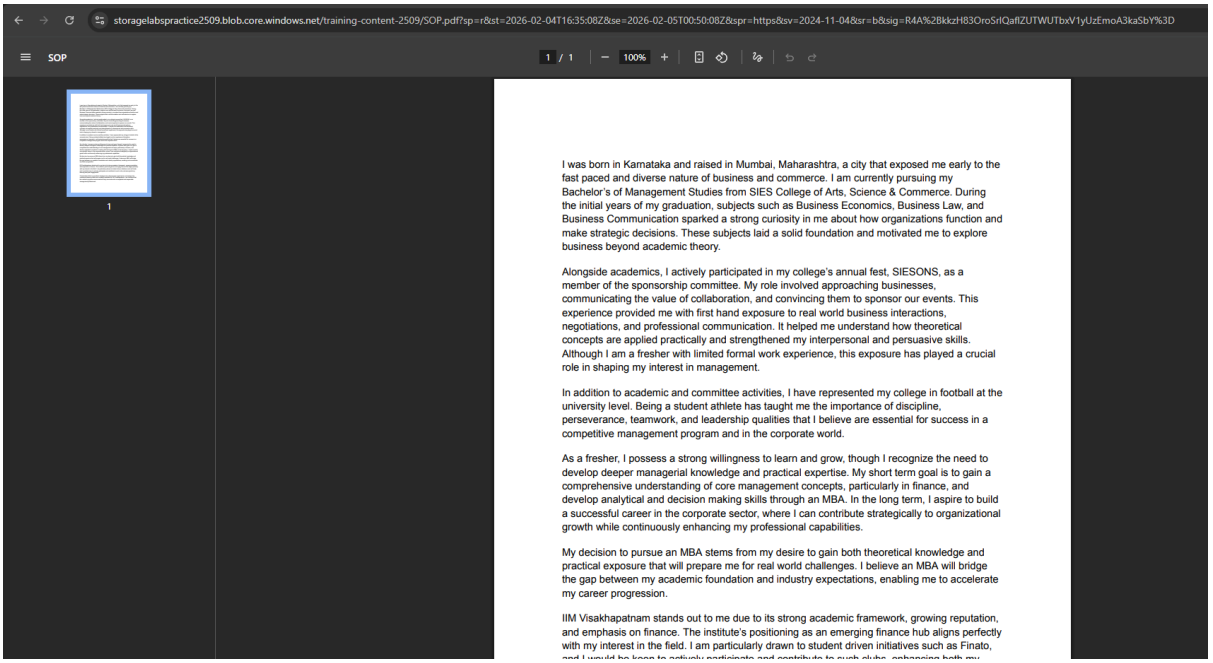




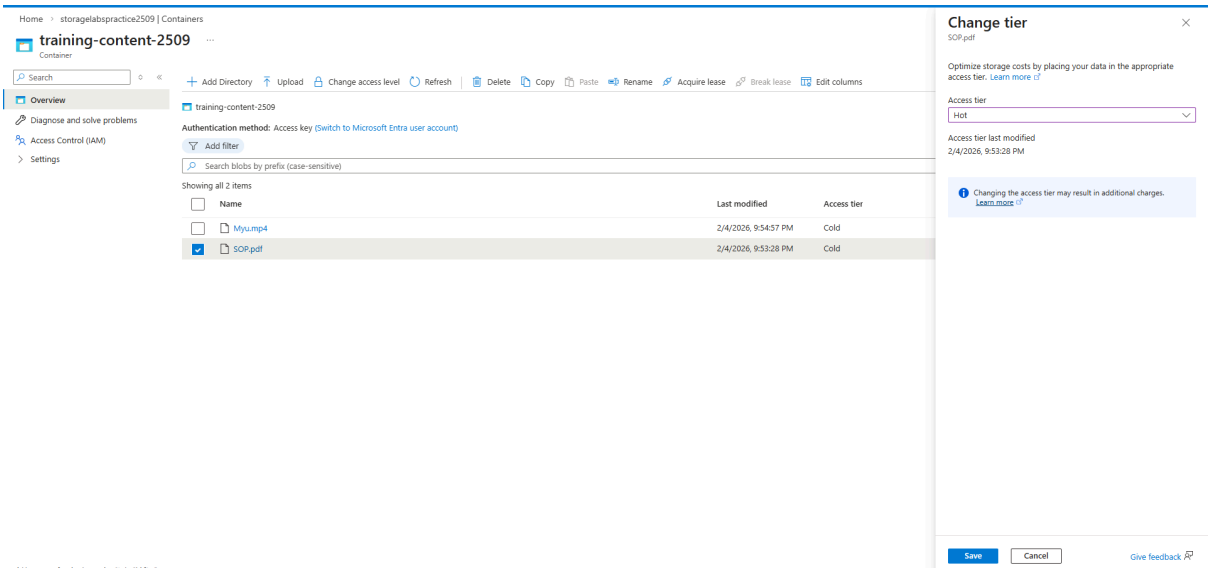


Task 7 - Access Control using Shared Access Signature (SAS)





Task 8 - Blob Storage Access Tiers



Hot: Frequent use, low access cost, high storage cost

Cool: Infrequent (30+ days), lower storage, higher access cost

Cold: Rare (90+ days), low storage, immediate access

Archive: Very rare, cheapest storage, hours to retrieve
